PROFESSIONAL SUMMARY

Driven Computer Science Engineering undergraduate specializing in Artificial Intelligence & Machine Learning with an 85% academic record. Industry-trained as an Intern at SkillCraft Technology, with practical skills in Generative AI, automated Python workflows, prompt engineering, and rapid model prototyping. Passionate about engineering impactful AI/ML systems and modern software solutions.

PROFESSIONAL EXPERIENCE

SkillCraft Technology | *Machine Learning Intern* | *September 2026 – October 2026*

- Engaged in hands-on model training, feature preparation, and pipeline development for core machine learning use cases.
- Integrated AI-assisted coding and debugging practices to improve code maintainability, testing turnaround, and algorithm execution.
- Developed interactive data visualizations and exploratory analytics modules using Python data science ecosystems.

PROJECTS

Privacy-Preserving Browser AI Agent | SIH26171

- Browser-based AI agent using local DOM analysis and PII detection to redact sensitive information before securely sharing sanitized context with an AI server. Implemented privacy-aware automation with validated actions (clicking, scrolling).

IRIS – AI-Powered Chatbot

- Interactive AI chatbot delivering intelligent, context-aware responses and natural language conversations. Integrated AI-driven conversational capabilities for real-time assistance through a user-friendly chat interface.

Suspicious Human Activity Recognition from Surveillance Videos

- Deep learning system classifying suspicious activities (falling, kicking, running, punching, shooting, snatching) from video sequences using CNN, LSTM, GRU, and Conv3D. Achieved up to 90.14% accuracy with a Time-Distributed CNN model.

EDUCATION

Qualification	Institution	Year	Score
B.Tech – CSE (AI & ML)	Sri Chaitanya Institute of Technology & Research	2027	85%
Intermediate (MPC)	Govt. Junior College, Nayabazar, Khammam	2023	96.0%
SSC (10th Standard)	Karunya Vidya Bhavan, Karunagiri, Khammam	2021	97.0%

TECHNICAL SKILLS

Programming Languages: Python, Java, C
AI & Machine Learning: Machine Learning, Generative AI, Prompt Engineering,
Web: Frontend & Backend Fundamentals,
Developer Tools & Platforms: VS Code, Google AI Studio, GitHub, AntiGravity, MS Excel (Advanced Analytics)
AI Productivity & Tooling: ChatGPT, Gamma AI, AI-driven Code Generation & Debugging

CERTIFICATIONS & CREDENTIALS

- 30-Day Python Using AI & Python Workshop – **AI for Techies (**AI code generation, interactive data visualizers & debugging)
- Generative AI Mastermind – **Outskill** (Advanced generative workflows & AI architectures)
- AI Tools Mastery Workshop – **Clapingo** (Workflow automation, Gamma AI, productivity tooling & prompt design)
- Advanced Excel Workshop – **Ira Skills / MSME** (Formulas, data analysis & structured data manipulation)

KEY STRENGTHS

Rapid Prototyping: Ability to quickly translate AI concepts into executable Python solutions.
Collaborative Problem-Solving: Agile team contributor with experience building projects and participating in hackathons.
Continuous Upskilling: Consistently expanding practical knowledge across modern AI tooling and frameworks.

LANGUAGES KNOWN

English, Hindi, Telugu

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
